

5th Workshop on **HDA2013** High-Dimensional Approximation

February 11–15, 2013

The Australian National University, Canberra

The workshop covers current research on all numerical aspects of high-dimensional problems. The scope ranges from high-dimensional approximation theory over computational methods to engineering and scientific applications. Participation is open to all interested in high-dimensional computational mathematics and science.

This international workshop is the fifth in a series which were previously held at The Australian National University in Canberra (HDA2005 and HDA2007), at the University of New South Wales in Sydney (HDA2009), and at the University of Bonn (HDA2011). This time the workshop returns to The Australian National University in Canberra to be held February 11–15, 2013.

Scientific committee

Jochen Garcke

U Bonn & Fraunhofer SCAI, Germany

Michael Griebel

U Bonn & Fraunhofer SCAI, Germany

Wolfgang Hackbusch

Max Planck Institute Leipzig, Germany

Markus Hegland

ANU, Australia & TU München, Germany

Frances Kuo

UNSW, Australia

Christoph Schwab

ETH Zürich, Switzerland

Ian Sloan

UNSW, Australia

Greg Wasilkowski

University of Kentucky, USA

Henryk Wozniakowski

Columbia U, USA & Warsaw U, Poland

Harry Yserentant

TU Berlin, Germany

Organisers

Jochen Garcke
